2.0 RULES AND REGULATIONS

2.1 Application of Tariff

2.1.1 This tariff contains the regulations and rates applicable to intrastate long distance resale telecommunications services provided by Amerishare for telecommunications between points within the State of Kentucky.

(A) Carrier may, from time to time, offer various enhanced services and information services within the State of Kentucky. Such services will be provided pursuant to contract and will not be governed by this tariff.

(B) Carrier may also, from time to time, offer switching and/or transmission to other telecommunications carriers, for resale to such companies' customers. The rates for any such services will be determined pursuant to contract, and Section 4 of this Tariff will not apply thereto.

2.0 RULES AND REGULATIONS (CON'T)

2.3 Liability of Amerishare (con't)

2.3.6 Amerishare shall not be liable for any failure of performance due to causes beyond its control, including, without being limited to, acts of God, fires, floods, or other catastrophes, national emergencies, insurrections, riots, or wars, strikes, lockouts, work stoppage, or other labor difficulties, acts, or omissions of other carriers, and any law, order, regulation, or other action of any governing authority or agency thereof.

2.3.7 Acceptance by the Commission of the liability provisions contained in this tariff does not constitute its determination that the limitation of liability imposed by the Company should be upheld in a court of law, but the recognition that, as it is the duty of the courts to adjudicate negligence claims and rights to recover damages therefor, so it is the duty of the courts to determine the validity of the exculpatory provisions of this tariff.

2.4 Responsibilities of the Customer or Subscriber

2.4.1 The Customer is responsible for placing any necessary orders; for complying with tariff regulations; and for assuring that users comply with tariff regulations. The Customer shall ensure compliance with any applicable laws, regulations, orders, or other requirements (as they exist from time to time) of any governmental entity relating to services provided or made available by the Customer to Authorized Users. The Customer is responsible for the payment of charges for all calls originated at the Customer's premises utilizing Amerishare's services.

3.0 DESCRIPTION OF SERVICE OFFERED (CON'T)

3.2 Timing of Calls

- 3.2.1 Long distance usage charges are based on the actual usage of Amerishare's network. The Company will determine that a call has been established through industry standard answer detection methods, including hardware answer detection.
- 3.2.2 Chargeable time for a call ends upon disconnection by either party.
- 3.2.3 The minimum call duration, initial period, and each additional timing period for billing purposes is stated on a per-product basis.
- 3.2.4 No charges apply for incomplete calls.
- 3.2.5 When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within the rate period. In the event that a billing increment is split between two rate periods, the rate in effect at the start of the billing increment applies.

3.0 DESCRIPTION OF SERVICE OFFERED (CON'T)

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the rate centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten. Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$
